IT solutions that work for your business

ADAPTIVE SOLUTIONS FOR A NET-CENTRIC WORLD

TechGuard Security®, LLC was founded in February 2000 to address the challenges of US Critical Infrastructure Security and National Cyber Defense. With expertise in IT security, project management, product research and development, and system integration, TechGuard offers a unique combination of core capabilities to assist military and defense organizations to adaptively counter threats to Net-Centric Operations and the Global Information Grid.

flexible solutions for your business needs

CYBER DEFENSE

Centers for Adaptive Technology Security (CATS)™

CATS™ is a collaborative program for Artificial Intelligence Research, Development, Deployment and Education for US Defense and Intelligence, Information Technology, Nanotechnology and Biotechnology Security.

CATS™ brings together the best of large contractor experience, small business flexibility and speed, academia for efficient technology transfer, and research partnerships and federally funded labs.

TECHGUARD ENGAGEMENTS

TechGuardians® are certified experts who specialize in consulting solutions that address existing and future challenges of Internet security and privacy by providing comprehensive IT security and information assurance services. TechGuard addresses both the processes and technical components of IT security ranging from detailed network security assessments to federal security and privacy compliance, training and Net-Centric Services.
