EXCEEDING EXPECTATIONS

“ By applying Program Management ‘best practices’ and leveraging organizational maturity to achieve a thorough review of all deliverables for clarity and technical accuracy prior to delivery; TechGuard’s adherence to scope, schedule and performance was flawless! ” **Contract Officer**

“ TechGuard’s overall quality of the contractors has been exceptional. TechGuard has been a true mission partner. ” **Deputy Director, DISA DECC**

“ Thank you for your quick response and action! We have received a lot of positive feedback, and I am really excited how everyone is diving right in to complete the coursework. ”
TechGuard S.H.I.E.L.D Cybersecurity Awareness Training Client

A PROVEN AND TRUSTED PARTNER

WHO WE ARE

TechGuard Security is an accountable and experienced company that has protected and served Fortune 500 companies, the DoD, and intelligence communities. Innovative research, knowledge of the ever-changing threat landscape, and rapid development of award-winning cybersecurity solutions ensure our clients stay a step ahead of hackers. TechGuard Security is an ISO 9001: 2015 – registered, certified SDB, DBE and Women-Owned Business Enterprise that goes above and beyond to protect critical Information Technology (IT) infrastructures by providing corporate transparency, relationship driven services, and implementing industry best practices.

OUR MISSION

Protect critical infrastructures by providing revolutionary cyberspace solutions for government, corporations, and most importantly, people.

OUR TEAM

We are highly educated, passionate, and certified cybersecurity professionals. We have an in-depth understanding of cybersecurity risks and vulnerabilities. We are equipped with cutting-edge solutions, as well as industry-leading tools and technology. We are prepared to create proactive countermeasures to malicious network attacks and protect what matters most to our clients.

Mission focused and respected personnel positioned across the U.S. prepared to address current cybersecurity threats.

GOVERNMENT

WHY CYBERSECURITY MATTERS

Information Technology (IT) systems and computer networks provide a backbone for the federal government's essential functions and operations. Diverse and sophisticated cyberattacks threaten the security, economy, public health, and overall critical infrastructure of our nation. Malicious cyberattacks with high intent and capability to obtain sensitive or classified intelligence have drastically increased in the past few years and show no signs of stopping.

TechGuard Security was founded with a singular purpose and mission – secure, protect, and defend the critical U.S. information network assets and provide cybersecurity defense. Our Subject Matter Experts collaborate with existing cyberspace resources and synchronize defensive and offensive warfighting effects to protect and defend the information security environment. We participate in Cyberspace Planning, Operations, Training, and Exercises in order to strengthen the nation's ability to withstand and counter cyberspace threats, ensure access, and respond to attacks.

Award-winning, trained, passionate, and certified team prepared to perform exceptional work in the cybersecurity industry.

CYBERSECURITY SERVICES

- Vulnerability Management
- End-Point Security
- Insider Threat Mitigation
- Cyber Incident Response
- Information Assurance
- Strategic Policy Shaping
- Defensive Cyberspace Operations
 - Internal Defense Measures
 - Responsive Actions
- Command Cyber Readiness and Inspection
- Cyber Exercise Planning (OCO/DCO)
- Cyber Fires Planning (OCO Fires)
- Law Enforcement / Counter Intelligence Liaison Services

INFORMATION TECHNOLOGY SERVICES

- Audio/Video/Multi-Media Management
- System Engineering (SE)/System Architecture (SA)
- Help Desk Support (Tier I, II, III)

SUPPORT SERVICES

- Red Team Operations
- Special Access Program Services
- Knowledge Management
- Records Management
- Business Process Review
- Data Analytics
- Independent Validation and Verification
- Risk Management Framework
- Geo-Spatial Analysis
- Imagery Analysis
- Operational Test and Evaluation
- Disk and Memory Forensics
- Program Management
- And more....

CORPORATE

EDUCATE | EMPOWER | SECURE

TECHGUARD
S.H.I.E.L.D.
SECURE · HOLISTIC · INTEGRATED · EMPLOYEE · LEARNING · DEFENSES

Secure your network from insider threats with our S.H.I.E.L.D Awareness Training; including PhishingReal.

Create a security-minded culture by educating and empowering your workforce with our comprehensive and sustainable cybersecurity training solution. Mitigate risks and vulnerabilities to your proprietary data by deflecting the 'human element' of cybersecurity threats. Customizable, email phishing simulator included.

Features:

- Automated Managed Services
- Reports and Analytics
- Aligned with Best Practices and Industry Standards (NIST, PCI, GDPR, HIPAA)

SECURITY RISK ASSESSMENT

Identify outside threats with our Cybersecurity Corporate Service offerings. Our experts assess your existing security program to identify and mitigate risks.

Comprehensive assessment services include:

- Penetration Testing
- Vulnerability Assessment
- Physical Security Assessment
- Social Engineering
- And more...

PROACTIVE CYBERSECURITY SERVICES

Strengthen your security program and avoid data breaches related to people, processes, and technology.

- Policies/Procedures Development (based on best practices and regulatory controls: HIPAA, NIST, PCI-DSS, FAA, DoD, FISMA/RMF)
- Strategic Security Planning
- Security Architecture Design
- Security Engineering Support
- Incidence Response (planning, assessment, or tabletop exercise)

SPEAK TO A CYBERSECURITY SPECIALIST

855-477-SHLD (7453)

“TechGuard Security is a true mission enabler! TechGuard provided quality deliverables at a 100% on-time rate exceeding the standard 95% outlined in the contract.”
